## DESIGN CONTROL GUIDELINES NORTHLAKE HOME LOTS

## NORTHLAKE PHILOSOPHY

The stunning landscape of Northlake is deserving of protection, as is your investment in your Northlake property. Therefore, you need confidence that your neighbours in Northlake share the vision of a high-quality residential development, while also protecting Northlake's natural environment and views.

Northlake Homes (types A – J) are to be built according to the Approved Building Plans applicable to the relevant Northlake Home Lot (as specified in the Appendix).

A key objective of these Guidelines is to ensure a high-quality built environment and to limit development to an appropriate and coordinated palette of materials in keeping with the Northlake setting.

These Design Controls shall be administered by Northlake Investments Limited ("NIL") or such person appointed by NIL.

## BUILDING CONSTRUCTION

- An Owner must select one of the Northlake Homes that has been allocated to their Lot (see Appendix) and then build as per the approved building plans for that house (the "Approved Building Plans").
- The Approved Building Plans for each of the Northlake Homes are available at <https://winton.nz/our-projects/northlake/nl-house-information/>
- An Owner may amend or vary the internal layout of the Approved Building Plans but cannot change the external materials or external appearance of the Northlake Home in any way.

## SETBACKS

- Buildings on lots located in Activity Area B4 and C2 are not to be constructed within the following setback areas:
  - Road and access lot boundary(s) - 4.5 metres.

- Buildings on lots located in Activity Area D1 are not to be constructed within the following setback areas:
  - Road and access lot boundary(s) – 3.0 metres.
  - Internal boundaries - 1.5 metres.

- The letterbox is to have a maximum dimension of 400Wx400Dx400H

- If the response is a Design Control Approval, the Owner/Agent can apply for the necessary QLDC consents.
- Alternatively, if NIL does not provide a Design Control Approval, then the Owner/Agent may work with NIL to amend the submission so that a Design Control Approval can be issued.
