DESIGN CONTROL GUIDELINES
DESIGN YOUR OWN HOME LOTS

#### NORTHLAKE PHILOSOPHY

The stunning landscape of Northlake is deserving of protection, as is your investment in your Northlake property. Therefore, you need confidence that your neighbours in Northlake share the vision of a high-quality residential development, while also protecting Northlake's natural environment and views.

Please note that Design Control Approval on the basis set out in these Guidelines is required prior to commencement of any work for building construction, landscaping and fencing, as well as future external additions or renovations (including colour change) on any Design Your Own Home Lot.

Design Control Approval is required prior to obtaining Queenstown Lakes District Council ("QLDC") consent so please take a few minutes to read these Guidelines and ensure that your architect/home designer, landscape designer and builder are also familiar with them.

A key objective of these Guidelines is to ensure a highquality built environment and to limit development to an appropriate and coordinated palette of materials in keeping with the Northlake setting.

In these Guidelines, "buildings" means any dwelling (including carports and garages), structure or accessory unit erected on a Design Your Own Home Lot.

These Design Controls shall be administered by Northlake Investments Limited ("NIL") or such person appointed by NIL.

Please note, the Design Controls that apply to your lot at Northlake depend on the Activity Area in which your lot is located. Please take a minute to familiarise yourself with the Activity Area in which your lot is located (See Appendix).

#### **BUILDING CONSTRUCTION CONTROLS**

- In addition, in Activity Area B2 B6 C1 and C2, no part
  of any building shall protrude through a recession line
  inclined toward the site at an angle of 40 degrees
  and commencing at 2.5 metres above ground level
  at any given point on the site boundary.
- The recession line shall not apply to Activity Area D1.

#### CONTINUOUS BUILDING LENGTH

- Where the aggregate length along one elevation of the building (as measured parallel to any boundary or boundaries) exceeds 16 metres, either:
  - o The entire building is to be setback an additional 0.5 metres for every 6 metres of additional length, or part thereof, from the minimum setback detailed above (Building Setbacks); or

- The exception to this requirement is where duplex lots, capable of containing two dwellings and of being further subdivided are identified by the developer. In this case, two dwellings sharing a common wall may be erected on the lot. The lot may then be further subdivided. The lot may not be subdivided prior to the dwellings being complete. The design controls as noted in this document shall otherwise generally apply.
